

The Menstrual Cycle started again after The Blood had Stopped

Q: Taharaat-12: The menses blood stops after three days and then appears again after performing 3, 4 or 5 salaahs. There are times however when it does not reappear again. is it necessary to repeat these salaah? If the bath is delayed and salaah not performed, should these salaahs be repeated?

Answer: If a woman was always in the habit of bleeding for only three days, she should bath after three days and start performing her salaah. Qadhaa will be binding if she does not perform her salaah. However, as a precaution, she should have intercourse with her husband only when there is no possibility of the blood returning. And Allaah knows best what is most correct.
