

For an Ill Person to Make Sajdah on a pillow

Q: Salaah-329: An ill person performs salaah with indications. Will his salaah be valid if a pillow is placed in a raised position so that he can make Sajdah on it? Zaid says that this is not valid. Is he right?

Answer: It is necessary for a person performing salaah by indications to bend as much as possible for the Sajdah. If the pillow is placed at the furthest point of bending, the salaah will be valid. However, if the pillow prevents the person from bending any further, the Sajdah will be incomplete and the salaah invalid. And Allaah knows best what is most correct.
