

### The Hadith Concerning Mixing Something with Honey

Q: Prohibitions and Permissions-42: Someone has read in a book that there is a Hadith stating that nothing may be mixed with honey. Is this Hadith authentic because we usually mix water with honey?

Answer: The meaning of the Hadith is that nothing like water, milk, etc should be mixed with honey and then sold because it would entail deception. There is no prohibition against mixing these drinks in honey to consume it.
